

# 100% Custom Silkscreen Wristbands

**Silkscreen** wristbands are produced by creation of a mold that resembles the shape of the wristband. One the mold is created, molten silicone in the color of your choice, whether a single color, segmented colors, swirled color combinations or “glow in the dark” color is poured into the mold and allowed to cure. Once cured, the wristband is removed from the mold, your text, logos and images are printed with environmentally safe, LEAD FREE paint that is guaranteed last. Once the Printing process is complete your custom Silkscreen wristbands are packaged for delivery
